In the Specification

Please amend the specification as follows:

Clean Version of the Specification:

Please amend the specification as follows:

Please replace the paragraph from page 1, line 22, to page 2, line 10 with

the following paragraph:

Client users frequently use peripheral devices physically attached to the

client machines. For example, a user may wish to attach a printer to the user's

client computer (a "local" printer) in order to print data generated by an application

that is running on the server computer. To do this, currently the user must

manually install the local printer and redirect the printer queue created by the
